PROFESSIONAL SUMMARY

Software Engineer building high-performance web and cross-platform mobile apps with TypeScript, React, React Native and Expo. Delivered production-ready e-commerce and tutoring platforms featuring offline-first synchronization, payment flows, real-time updates, and scalable, accessible UIs, supported by Node.js, tRPC and PostgreSQL. Skilled at translating product requirements into maintainable code and fast user experiences.

PROFESSIONAL EXPERIENCE

Freelance React Native Developer

10/2025 – 11/2025

Self-Employed

- Built a cross-platform jewellery and clothing shopping app using React Native and Expo.
- Implemented offline-first cart sync, cart persistency, payment gateway flows, advanced search, and multi-level filters.

Junior Frontend & Mobile Developer

03/2024 – 06/2024

MyMegaMinds

- Built and launched the companion mobile app for a tutoring platform from scratch.
- Used React Native and Expo to create consistent cross-platform layouts and translate complex web views into native components.

React.js Junior Frontend Developer

06/2023 – 03/2024

MyMegaMinds

- Owned responsive landing pages, user dashboards, and core web features.
- Built multi-role dashboards, a custom markdown blog workflow, and real-time notifications with Socket.io.

EDUCATION

Govt Sen Sec school Dhada Fateh Singh Hoshiarpur

03/2019 – 03/2021

- Secured 84% in Physics, Chemistry & Mathematics (PCM).
